Planning Underway!

Please contribute ideas and feedback via Product Roadmap Portal at ds-docs.y.org/roadmap

Donations Questions

Donations

GOAL

YUSA is considering including a Donation module in the Web Services Distribution for Y Associations to utilize to collect and manage donations on their associations' website.

Prior to moving forward with development, we would like to understand how Y associations are currently handling donations on their websites, as well as learn more about what functionality is most important when it comes to accepting donations.

Updates to Events

Event Entry and Display Improvements

Event Date(s) *

Improved date/time picker

Start * 11/22/2023 10:00 AM

End * 11/22/2023 12:00 PM

"All day" and "Duration" options

All day Duration 2 hours

- ← Improved options for Event date/time
- ↓ "Smart" display of single day, multi-day, and all day Events

consectetur adipiscing elit.

📅 Wed, Nov 22 2023, 10am - Sat, Nov 25 2023, 12pm

📍 [Downtown Springfield]

Multiple dates

consectetur adipiscing elit.

📅 Sat, Nov 25 2023, 10am - 12pm

📍 [Downtown Springfield]

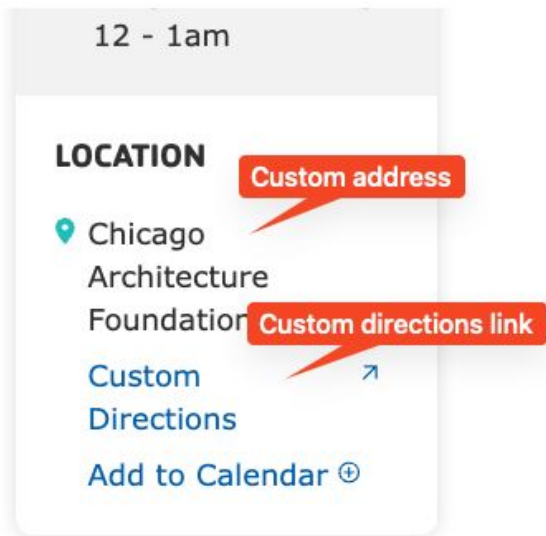

Single day

All aboard, seniors! Take a 2-hour tour of the city on this casual riverboat picnic that includes a boxed lunch.

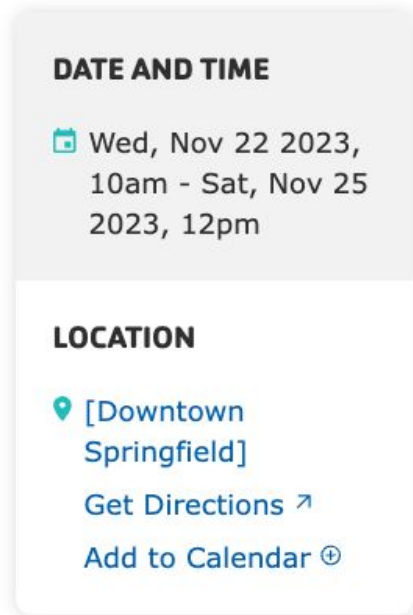

📅 Wed, Nov 29 2023, All day

📍 [Downtown Springfield]

Event Entry and Display Improvements

-  Improved support for custom addresses and directions
-  Redesigned detail view of date, time, and location.

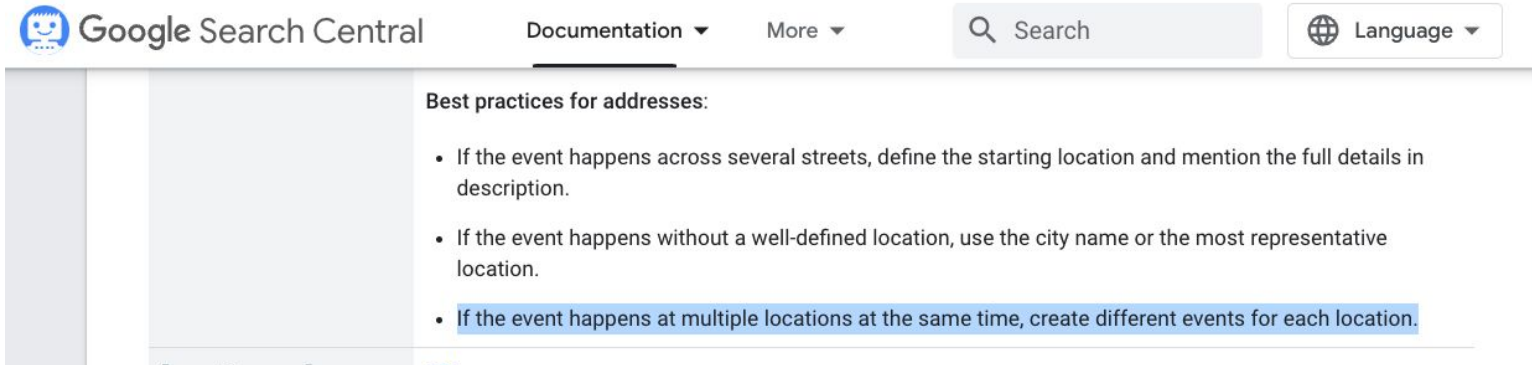

Multi-location Events

- **Example:**

- “My Y is doing a blood drive this week at 4 different locations”

- **Solution:**

- This needs to be created as 4 separate events as per Google [structured data recommendations](#), but we can use tags to group the events together.
- Tag landing pages and support for tags in the “Related Events” block will be coming soon.

The screenshot shows the Google Search Central interface. At the top left is the Google Assistant logo and the text "Google Search Central". To the right are navigation links for "Documentation" and "More", a search bar with a magnifying glass icon and the word "Search", and a language selector with a globe icon and the word "Language". Below the navigation bar, the main content area displays the heading "Best practices for addresses:" followed by a bulleted list of three items. The third item, "If the event happens at multiple locations at the same time, create different events for each location.", is highlighted with a blue background.

Language ▾

Best practices for addresses:

- If the event happens across several streets, define the starting location and mention the full details in description.
- If the event happens without a well-defined location, use the city name or the most representative location.
- If the event happens at multiple locations at the same time, create different events for each location.

Recurring Events

- **Example:**

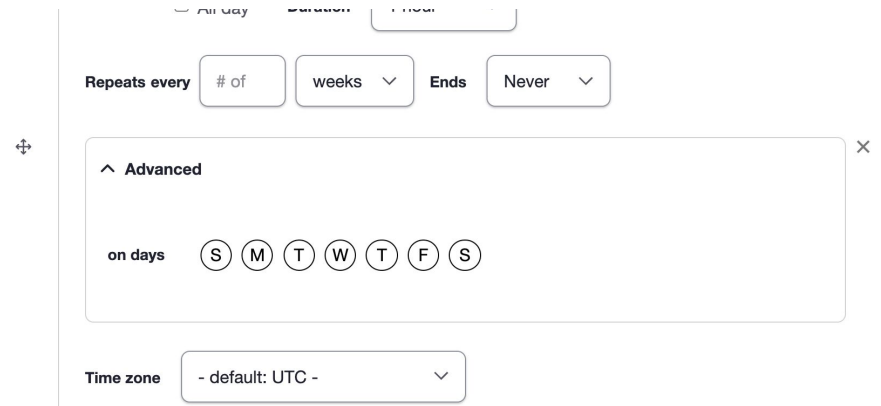

- “My Branch is having a movie night the first Friday of each month.”

- **Solution:**

- It’s... complicated...
 - Is the location the same? The time? The content? The title?
-  Have you considered Clone? (It works better than it did in the past.)
-  Full support for recurrences is in progress
